

# CAROLINA CASALASPRO

Teacher of History and Environmental Management  
at the Colegio Rio de la Plata Sur

Carolina is a professional fellow from Argentina who participated in the Youth Ambassadors Program for Argentina & Chile from March to April 2017. The program incorporated cultural and educational programming focused on civic engagement and social entrepreneurship with organization like the DU Center for Multicultural Excellence, Building Bridges, Denver Mayor Youth Commission, and Project C.U.R.E. to name a few.

"Out of the many cities I had the joy to visit as part of the Youth Ambassadors Program my experience in Denver was my favorite. I consider my Denver experience one of the best moments of my life. I was given very deep educational experiences and I was able to interact, through my host family, with great people from your community. I appreciate the openness of your people, the passion for democratic debate during the meetings I attended and the way I was treated as a foreigner in a very traditional and yet forward-thinking place.

I would like to thank all of you for allowing me to share your beautiful city and surrounding areas. I am a much better teacher now and I took everything I learnt through your education programs for educators to become more involved with my local community and to widen my horizons connected to social improvement. In these very challenging times all the leadership skills I was given through my exchange program became fundamental to help go through this storm.

I would love to work in Denver again."
